2. Press  (line button) if you are using the Speakerphone, headset or handset.
3. Alternatively you may also press  (headset button) if you are using a headset.

MICROPHONE MUTE

1. To mute the phone microphone, speaker, or headset microphone press

- . The button will glow red.
2. The other party cannot hear you.
3. Press  (microphone mute button) again to unmute and resume audio.

CALL HOLD AND RESUME

1. During a call either press the **Hold** soft key or hold button  to place the call on hold.
2. The line button flashes red .
3. The caller on hold will hear Music or Message on hold if enabled on your system.
4. Press the **Resume** soft key or flashing red line button to re establish the call.

LOCAL CONFERENCE CALLS

To create a three-way local conference call:

1. You can create a conference with two other parties using the phones local conferencing feature.
2. During an active call, press (right arrow) then press the **Conf** soft key to create a new call.
3. The active call is placed on hold and the caller will hear Music or Message on hold if enabled on your system.
4. Dial the phone number of the second party
5. When the second party answers, press the **Conf** soft key again to join all parties in the Conference.
When you hang up, the other two parties are disconnected. To keep the other parties in a call, but disconnect you from the call, press Join.

Use the Star2Star Conference room feature for larger conferences.

CALL TRANSFER

Blind Transfer (Transfer without announcement):

1. During a call, press  then press the **BlindXfer** soft key.
2. The caller on hold will hear Music or

- Message on hold if enabled on your system.
3. Dial the number you want to transfer the call to then press the **Dial** soft key to complete the transfer.
4. Alternatively during a call press the **Transfer** soft key, dial the number you require then press the **Dial** soft key followed by the **Transfer** soft key to complete the transfer.

Transfer (Announced):

1. During a call, press the **Transfer** soft key.
2. The caller on hold will hear Music or Message on hold if enabled on your system.
3. Dial the number you want to transfer the call to and then press the **Dial** soft key.
4. When the called party answers announce the call.
5. Press the **Transfer** soft key to complete the transfer.

CALL FORWARDING

To enable call forwarding:

1. Press the **Forward** soft key from the phone's idle display. A tone will be heard.
2. Enter the number required.
3. Press the **Dial** soft key to invoke the feature. You will hear 3 beeps as confirmation.
4. A **Call Forwarded** message will appear in the phone display.

To disable call forwarding:

1. Press the **Clr Fwd** soft key.

Use the Star2Star Find-Me / Follow-Me feature found in the Star2Star Web Portal Individual Phone Settings section.

Follow Me (Immediate)
Find Me (Sequential)
Find Me (All)

REDIAL

1. Press the **Redial** soft key and use the navigation arrows to select the desired number from the Place Call list.
2. Lift the handset or press the **Dial** soft key.

3. Select the **EditDial** soft key to edit the number selected before dialing e.g. to add an area code.

DO NOT DISTURB

1. Press **DND** soft key.
2. A **Do Not Disturb** message will appear in the phone display.
3. Press the **Clr DND** soft key to turn off the feature.
(Note) callers will be directed to Voice Mail or the Star2Star Find-Me / Follow-Me feature if invoked.

VOICE MAIL

1. The indicator at the top of the phone will glow red when new message are waiting. A message envelope icon  will appear against your extension number in the phone display.
2. To listen to voice messages press the  button or dial 1000.
3. The system will prompt for your password.

(Note) when accessing the voice mail system for the first time your password is your extension #. Change your password to a number other than your extension number e.g. a 4-digit number you can recall easily.

DIRECTORY

The Company Extension Directory is automatically downloaded to the phone.

1. To access the Directory press  (setup button).
2. Use the navigation arrows to select option 1 **Directories**. Press the **Select** soft key.
3. The phone will display 2 options:

DIRECTORY (contd)

- Personal Address Book

You can add up to 300 entries into the phone directly. Each entry contains a number of fields i.e. Name / Work No / Mobile No / Home No / Ring Tone.

(Note) you can also import contacts directly from a Bluetooth enabled mobile phone. View the Star2Star Phone and Features Guide for details on this feature.

- Directory

The corporate extension directory is automatically downloaded to the phone. The phone will display 32 entries at a time. Press the **Next** soft key to display additional entries as required.

4. Using the navigation arrows select the directory you require and press the **Select** soft key.
5. Use the navigation arrows to select the entry you require.
6. Press the **Option** soft key (Personal Address Book only) to use the **Search** feature to locate a specific entry.
7. Press the **Dial** soft key to dial the entry you require.

SPEED DIALS

You can create speed dials assigned to a number, that, when pressed on the keypad, dials the number assigned to it. You can have up to 8 of these (2 – 9) speed dials. Location 1 is reserved for voice mail).

1. Press  (setup button)
2. Scroll to Speed Dials and press the **Select** soft key.
3. For a new speed dial, scroll to select an unused speed dial location (2 through 9).
4. To edit an existing speed dial, select it.
5. Press the **Edit** soft key.
6. Enter the name and phone number for the speed dial.

SPEED DIALS (contd)

7. To select a contact from the Address Book, press **Option** and select **Select From Address Book**. Scroll to choose the contact and press **Select**.
8. Press **Save**.
To call one of your configured speed dial numbers, choose one of the following options:

- Open a phone line and press the number for the speed dial (2 – 9), then wait a few seconds or press the **Dial** soft key.
- Press  (setup button) select **Speed Dial**, choose the number, and press the **Dial** soft key.

(Note) if your phone has been fitted with an expansion module(s) use the Star2Star Web Portal Individual Phone Settings / Speed Dials section to configure this device. Typically you would add local extensions to view their presence and allow one touch transfer of calls from your phone to that extension.

VOLUME ADJUSTMENT

1. Press the  volume button to adjust handset, headset and speakerphone volume during a call.
2. Pressing this button with the phone in an idle state will adjust the ringer volume.
3. Press the **Save** soft key to keep the setting.

RING TYPE

1. Press  (setup button) to enter the Settings Menu.
2. Scroll to **User Preferences** and press **Select**.
3. Scroll to **2 Audio Preferences** and press the **Select** soft key.
4. Scroll to the extension you wish to change. Typically all calls will arrive on **Ext 1**.

RING TYPE (Contd)

5. Press the right arrow navigation button to view and subsequently scroll the available ring tone options.
6. Press the **Play** soft key to listen.
7. When you have selected the tone you require press the **Select** soft key.

8. Press the **Back** soft key twice followed by the **Exit** soft key to return to the idle phone display.
(Note) you may upload 2 custom mp3 ring tones.

STAR2STAR CALL PARK AND RETRIEVE

1. With a call in progress press the **Park** soft key.
2. The phone will announce the system retrieval code e.g. 7001 and automatically park the call in the first available park position e.g. **Park 1**.
3. The park button glows red and the caller is now parked.
4. The caller will hear music or message on hold if configured on your system.
5. Press the relevant **Park** position button on your phone or any similar model local extension to retrieve the call.
6. Alternatively dial the retrieval code e.g. 7001 to **retrieve** the call or if fitted with an Attendant Console press the appropriate shared park position button.

CALLER PICKUP

1. To pick up a call ringing a specific phone that is not ringing as part of a Ring Group, dial ***8xxx** (xxx being the extension of the ringing phone).
2. For example your neighbor's phone extension 112 is ringing. You would dial ***8112** to pickup that call.
3. To pick up a call on any ringing phone dial ***8**.
